Improving Transport and Accessibility through new Communication Technologies
iTRACT
Improving Transport and Accessibility through new Communication Technologies

Theo Miljoen
5th transnational partner and stakeholders meeting
28-29 November, Karlstad
Actionpoints

- App’s will be ready 31st March 2014 (regional coordinators)
- Pilots start April 2014 latest (RC)
- Information to run pilots select, define, organization, pilots (LB) budget consequences included
- Select which app’s could ‘easily’ be used in different regions (not context sensitive): on demand travel and ride sharing (Lars-RC)
- Number of 40 app’s
  - Gerrie Alberts 7 app’s (Jacob)
  - Hands on, manage progress (Lars) / Be in contact with
  - More resources in development of app’s (RC)
- Train the trainers for user empowerment workshops (Lars)
Budget change will be prepared after the next reporting period.

Relation between the developed app’s and ITRACT (aims) had to be clearly described by the regions for WP6 (RC)

Interaction between WP4 and developers of app’s WP5 must be organized (WP4-WP5 leaders)

Intensify interaction between partners and Jan/Catrin: more actual information on the website (all) and formulate clear expectations what information is expected (Jan/Catrin)

Feedback on reports (LB)

Information from Rogaland for best practice guides (Jan)

Evaluative information about the pilots including app’s is needed for WP6 (RC-WP6)

Draft best practice guides and reports will be discussed at the October 2014 meeting (WP-leaders)
Aims 5th international partner meeting:

- conclusions about project issues and progress
- clarity about the extension of ITRACT
- clarity about the organization of pilots and BIW
- clarity about the information needed for WP6
- sharing same ideas what will be delivered by whom
Oldenburg, May 22-23, 2014
